

# A NEW CARE MODEL FOR LTSS

The CareCentrix® Long Term Services and Support (LTSS) solution combines our robust analytics platform, home-focused clinical solutions and digital technologies to keep your members safely at home.

## Better Outcomes at Home

*Prevention of unnecessary acute care episodes*

*Higher member and caregiver satisfaction*

*Appropriate allocation of PCS hours*

*High-quality, cost-efficient patient care*

*Improved care coordination and member engagement*

CareCentrix is a registered trademark of CareCentrix, Inc.

## Enhanced Risk Stratification & PCS Hour Optimization

- Forecast and recommend interventions for all LTSS members
- Ensure appropriate HCBS utilization and PCS hour allotment
- Deliver holistic individualized LTSS care plan

## CareCentrix Care Navigator

- Dedicated point of contact for Health Plan Care Managers
- Collaborates exchange of information for care coordination
- Monitors member status, utilization and delivery of services & supports

## Transitions of Care & Readmissions Management

- Proactively direct members to the most appropriate site of care
- Post-acute care transitions
- Chronic condition management
- Unnecessary readmission avoidance

## Remote Patient Monitoring Support

- Connect members and caregivers with easy to use digital health tools
- Monitor diagnostics to keep track of progress at home
- Recommend care plan enhancements
- Gather non-clinical data to influence wellness
